

REMARKS

At the outset, the Examiner is thanked for the thorough review and consideration of the pending application. The Office Action dated June 27, 2005, has been received and its contents carefully reviewed.

Claims 6, 7, 13, 14, 17, and 18 have been amended. Claims 1-18 remain pending in this application. Claims 15 and 16 are allowed in this application, and claims 2-5 and 10-12 were indicated as containing allowable subject matter if rewritten in independent form.

In the Office Action, the title was objected to as not descriptive, the abstract was objected to, and the disclosure was objected to because of various informalities. Claims 6-7, 13-14, and 17-18 were rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1, 8, and 9 are rejected under 35 U.S.C. § 102(a) as being anticipated by Korean Patent No. KR 2002076830 A to Do et al. (hereinafter "Do").

The title and abstract have been amended in response to the Examiner's objections.

With regard to the objection of the disclosure due to various informalities, the specification has been amended to place TOR and RL in the denominator, thus correcting a typographical error.

The rejection of claims 6-7, 13-14, and 17-18 is respectfully traversed, and reconsideration is requested. These claims have been amended by placing TOR and RL in the denominator, thus correcting a typographical error.

Papers to correct the inventorship of the present invention are filed herewith, wherein Ki-Hoon Do is now correctly identified as an inventor along with Sung-Han Jung. Therefore Do as cited by the Examiner is not prior art against the present invention, therefore claims 1, 8, and 9 are allowable.

Applicants believe the foregoing amendments place the application in condition for allowance and early, favorable action is respectfully solicited.

If for any reason the Examiner finds the application other than in condition for allowance, the Examiner is requested to call the undersigned attorney at (202) 496-7500 to discuss the steps

necessary for placing the application in condition for allowance. All correspondence should continue to be sent to the below-listed address.

If these papers are not considered timely filed by the Patent and Trademark Office, then a petition is hereby made under 37 C.F.R. §1.136, and any additional fees required under 37 C.F.R. §1.136 for any necessary extension of time, or any other fees required to complete the filing of this response, may be charged to Deposit Account No. 50-0911. Please credit any overpayment to deposit Account No. 50-0911. A duplicate copy of this sheet is enclosed.

Respectfully submitted,

Dated: November 28, 2005
